ABSTRACT

The CRITICAL Issue Bibliography (CRIB) Sheet describes resources concerned with creating a multicultural environment in higher education. Creating a multicultural environment is a combination of recruitment, retention, climate issues, pedagogy and curriculum, organizational values, culture and structure, and faculty and staff development. This CRIB Sheet focuses on teaching practices and approaches to learning that create a multicultural environment. This annotated bibliography describes 15 resources, all of which are in the ERIC database. (SLD)

What is an ERIC CRIB Sheet?

A Critical Issue Bibliography (CRIB) sheet is a selected bibliography on a topic of interest in the field of higher education. The majority of the literature cited in the bibliography is found in the ERIC Database, though some CRIB sheets also include other literature, such as selected Internet resources. CRIB sheets are updated annually.

Many of the issues discussed in one bibliography relate to another CRIB sheet topic. For example, the CRIB sheet on affirmative action is closely related to the CRIB sheet on creating a multicultural climate on campus. We have tried to note such connections in the bibliographies themselves; we encourage you not to see CRIB sheet topics as discrete and to explore several bibliographies on related topics.

This CRIB sheet was updated in December 2001.

**Critical Issue Bibliography (CRIB) Sheet:
Multiculturalism and Teaching/Learning**

Creating a multicultural environment is a priority for most college campuses. Many people conceptualize this issue purely in terms of numbers of student or faculty of color--essentially recruitment. Others tend to focus on the curriculum and infusing a wider representation of perspectives. However, creating a multicultural environment is a combination of recruitment; retention; climate issues; pedagogy and the curriculum; organizational values, culture, and structure; and faculty and staff development. Our multicultural CRIB sheet series provides resources in all of these key areas, with each CRIB sheet focusing on resources for a particular area. Here, we highlight teaching practices and approaches to learning that create a multicultural environment.

ERIC documents (references with ED numbers) can be read on microfiche at approximately 900 libraries or can be purchased from the ERIC Document Reproduction Service by calling 1-800-443-ERIC. Strange, Carney, & Alston, Lorraine. (1998). Voicing differences: Encouraging multicultural learning. *Journal of College Student Development*, 39, 1, 87-99.
Student-affairs graduate students (n=70) adopted a "voice," other than their own, for a semester. Journal entries reveal steps the students took in learning to see through the eyes of individuals different from themselves. Factors contributing to powerful transformational outcomes for diversity encounters are indicated.

The students (n=132) interviewed were from four institutions serving demographically very different populations. Results suggest that nontraditional students can be transformed into full members of the college academic and social community.
